Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of TEAM Consulting Engineering and Management Public Company Limited

I have reviewed the accompanying consolidated statement of financial position of TEAM Consulting Engineering and Management Public Company Limited and its subsidiaries as at 30 September 2023, the related consolidated statements of comprehensive income for the three-month and nine-month periods then ended, and the related consolidated statements of changes in shareholders' equity and cash flows for the nine-month period then ended, as well as the condensed notes to the interim consolidated financial statements. I have also reviewed the separate financial information of TEAM Consulting Engineering and Management Public Company Limited for the same period (collectively "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 *Interim Financial Reporting.*

TEAM Consulting Engineering and Management Public Company Limited and its subsidiaries Notes to interim consolidated financial statements

For the three-month and nine-month periods ended 30 September 2023

1. General information

1.1 Corporate information

TEAM Consulting Engineering and Management Public Company Limited ("the Company") is a public company incorporated and domiciled in Thailand. The Company is principally engaged in the integrated engineering, environment and management consultancy services. The registered office of the Company is at No. 151, TEAM Building, Nuan Chan Road, Nuan Chan, Bueng Kum, Bangkok.

As at 30 September 2023, the Company has five major shareholders that are Mr.Teerachai Rattanakamolporn, Mr.Sataporn Ngamruengphong, Mr.Amnat Prommasutra, Mr.Takorn Rattanakamolporn and Mr.Supachoke Tantivit.

1.2 Basis for the preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language financial statements.

1.3 Basis of consolidation

The interim consolidated financial statements included the financial statements of TEAM Consulting Engineering and Management Public Company Limited ("the Company") and its subsidiary companies ("the subsidiaries") (collectively as "the Group") and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2022. During the current period, there were significant changes in the composition of the Group as follows.

TLT Consultants Company Limited

TLT Consultants Company Limited, a subsidiary of the Company, registered a decrease in the preferred share capital of Baht 5.25 million (52,500 preferred shares with a par value of Baht 100 per share) with the Ministry of Commerce on 1 February 2023. As a result, the Company's shareholding in this subsidiary increased from 49 percent to 100 percent. The Group recorded the effect of the change in shareholding portion of subsidiary, amounting to Baht 1.4 million, under the caption "Deficit from the change in the ownership interests in subsidiaries" in shareholders' equity in the consolidated statement of financial position.

1.4 Significant accounting policies

The interim financial statements are prepared by using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2022, with the exception of the adoption of accounting policies on financial instruments - investment in equity instruments and equity-settled share-based payments as mentioned below.

Financial assets designated at FVOCI (equity instruments)

Upon initial recognition, the Group can elect to irrevocably classify its equity investments which are not held for trading as equity instruments designated at FVOCI.

Gains and losses recognised in other comprehensive income on these financial assets are never recycled to profit or loss.

Dividends are recognised as other income in profit or loss, except when the dividends clearly represent a recovery of part of the cost of the financial asset, in which case, the gains are recognised in other comprehensive income.

Equity instruments designated at FVOCI are not subject to impairment assessment.

Financial assets at FVTPL

Financial assets measured at FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss.

These financial assets include derivatives, security investments held for trading, equity investments which the Group has not irrevocably elected to classify at FVOCI and financial assets with cash flows that are not solely payments of principal and interest.

Dividends on listed equity investments are recognised as other income in profit or loss.

Equity-settled share-based payments

The Group recognises equity-settled share-based payment transactions when services are rendered by employees, based on the fair value of the share options at the grant date. The expenses, together with a corresponding increase in "Capital reserve for share-based payment transactions" in shareholders' equity.

The revised financial reporting standards which are effective for fiscal years beginning on or after 1 January 2023, do not have any significant impact on the Group's financial statements.

1.5 New financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2024

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2024. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users.

The management of the Group believes that adoption of these amendments will not have any significant impact on the Group's financial statements.

2. Related party transactions

During the period, the Group had significant business transactions with related parties. Such transactions arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Group and those related parties. There were no significant changes in the transfer pricing policy of transactions with related parties during the period.

Summaries significant business transactions with related parties are as follows.

16. Earnings per share

Basic earnings per share is calculated by dividing profit for the period (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the period, and adjusted to reflect the impact of the distribution of share dividend, as described in Note 12 to the interim consolidated financial statements. The Company treats that the distribution of shares dividends as having occurred since the beginning of the first reporting period, and has accordingly recalculated that basic earnings per share for the previous period to enable comparison.

Diluted earnings per share are calculated by dividing profit for the period (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the period, and adjusted to reflect the impact of the distribution of share dividend, as described in Note 12 to the interim consolidated financial statements, and the weighted average number of ordinary shares which would need to be issued to convert all dilutive potential ordinary shares into ordinary shares. The Company treats that the distribution of shares dividends as having occurred since the beginning of the first reporting period. The calculation assumes that the conversion of potential ordinary shares were issued.
